

Showtime

Have you ever thought your cat looks boring? Don't worry because you can make a cat dress. First you will need to get a cat, fabric, a needle, thread, glue, jewels, and lace. After you get the supplies, get out a piece of fabric. Next you wrap the fabric around your boring cat. Now take out your needle and thread. Later on you put the needle through thread and then quickly put the needle through one end of the fabric under the neck and start sewing the pieces together. Then carefully sew with a new piece of thread under the tail. After that you can make small pockets with other pieces of fabric. When you're done with that you can glue on pretty jewels and lace to decorate your dress. You now have a cat who's not boring, and you can put on fashion shows.
