

OUR WONDERFUL WORK

This book is a little window into the children's experience here at TNSM. We photographed them at work, at play, and at peace, and recorded the stories they told about their experiences. Many aspects of their days, thoughts, and feelings are reflected in these images and in their original words.

Here is an opportunity for you to see a wide range of the work they accomplish.

Enjoy!

Caroline, Emily, and Shawn

Care of Self

Olivia

Camila and Rayhanna are my best friends. They treat me kindly. I like to be kind. Sometimes Camila cries. I say, "What happened, Camila?" I want to help her. It feels good to help her. If I'm sad, it's good when they kiss me.

Annabelle

When I come to school,
I learn about so
much stuff!

Sebastian

I wanted to make another peanut butter sandwich. I like the peanut butter. My mom says when the jar has a little thing around it, it's called Sun butter.

I also love the bread. And I love milk. My dad told me that milk makes your bones white and really strong.

I also like oatmeal with a lot of milk and ice cubes. Then I stir it and put in more and more milk and then I eat it. Some times I eat two oatmeals in one bowl!

I don't like to sleep because I ask my mommy, "I'm not sleepy." I want to play with my toys. She reads me books, like Nate the Great. He goes on adventures with his dog, Sledge. Then she usually says, "Go to bed, Sebastian."

My Posky calls me Little G.

Quinn

The first time I ever did that, I keep trying and trying and trying, and I just got it. I actually got on the monkey bars, and I fell off. I tried again and again.

I knew I'd be able to do it one day, and then the next time, I did it! People have to learn to do that by themselves. I just tell them to jump up and try to reach it.
